INDEPENDENT AUDITORS' REPORT

To the County Board of Supervisors
Sauk County
Baraboo, Wisconsin

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Sauk County, Wisconsin, as of and for the year ended December 31, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Sauk County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Sauk County Housing Authority, the discretely presented component unit of Sauk County. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Sauk County Housing Authority, is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Sauk County, Wisconsin, as of December 31, 2010, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we will also issue a report on our consideration of Sauk County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

To the County Board of Supervisors
Sauk County, Wisconsin

The management's discussion and analysis, budgetary comparison schedules and schedule of funding progress as listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Sauk County's basic financial statements. The combining financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

SAUK COUNTY

UNAUDITED MANAGEMENT DISCUSSION AND ANALYSIS For the Year Ended December 31, 2010

As management of Sauk County, we offer readers of Sauk County's financial statements this narrative overview and analysis of the financial activities of Sauk County for the fiscal year ended December 31, 2010. This section should be read in conjunction with the financial statements and the accompanying notes that follow. It should also be noted that the information contained herein will provide information on both the governmental operations and the business-type activities of the County.

FINANCIAL HIGHLIGHTS

- > The County's primary government total net assets increased by \$2.14 million, or 1.9%, from the prior year. The County's investment in capital assets net of related debt increased by \$435,000, the majority of which was routine infrastructure upgrades. Assets increased by a net \$792,000, comprised of increases in cash and investments of \$1.3 million and receivables of \$913,000, and decreases in capital assets net of depreciation of \$1.5 million. Liabilities decreased by \$1.35 million, or 1.8%, from decreases in general obligation debt.
- > The County's primary government operating expenses in 2010 were \$4.1 million more than 2009. Expenses included an additional \$590,000 in health and human services for children and family services and \$657,000 in decreased conservation and development expenses due to expiration of a watershed protection project and the end of the extension of specific 2008 flood recovery loans. Highway expenses increased \$2.4 million, or 44.3%, with changes in the level of infrastructure maintenance. Health Care Center expenses increased \$1.75 million due to demolition of the facility vacated in 2009, and higher depreciation and related debt service on the new facility constructed in 2009.
- > Program revenues decreased by 3.4%, or \$1.25 million, directly related to expense changes. Health and human services revenues increased by \$870,000 with funding for children and family services. Conservation funding decreased \$1.14 million with closure of the watershed project and end of flood-related loans. Highway program revenues decreased \$727,000.
- > The County's primary government total debt decreased by \$2.1 million during the current fiscal year, with decreases of \$2.025 million for scheduled debt service payments. Sauk County also refunded the final \$5 million of bond anticipation notes with \$4,925,000 of general obligation bonds.

OVERVIEW OF FINANCIAL STATEMENTS

Sauk County's financial statements consist of four parts:

1. Management Discussion and Analysis - This discussion and analysis is intended to serve as an introduction to Sauk County's basic financial statements.
2. Basic Financial Statements - The basic financial statements have three components:
 - > Government-wide financial statements provide both long-term and short-term information about the County's overall financial status.
 - > Fund financial statements focus on individual parts of County government and report on the County's operations in more detail than the government-wide statements.
 - > Notes to financial statements explain some of the information in the financial statements and provide more detailed data.

OVERVIEW OF FINANCIAL STATEMENTS (cont.)

3. Required Supplementary Information - The required supplementary information further explains and supports the information in the financial statements.
4. Supplementary Information - The supplementary information contains combining statements that provide details about the non-major governmental and internal service funds. The non-major funds are aggregated and presented in a single column in the basic financial statements, as are the internal service funds.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of Sauk County's finances, in a manner similar to a private sector business.

The statement of net assets presents information on all of Sauk County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as useful indicators of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how Sauk County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving the rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave.)

Both of the government-wide financial statements distinguish functions of Sauk County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities.) The governmental activities of Sauk County include public safety; public works; health and social services; culture, education and recreation; conservation and development; and general government. The business-type activities of Sauk County include the highway operation and nursing home.

The government-wide financial statements include not only Sauk County itself (known as the primary government), but also a legally separate housing authority for which the County may have a legal responsibility. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

OVERVIEW OF FINANCIAL STATEMENTS (cont.)

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Sauk County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Sauk County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as ongoing balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the governmental funds with similar information presented for the governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Sauk County maintains 16 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and Human Services Fund, both of which are considered to be major funds. Data from the other 14 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Sauk County adopts an annual budget for all its governmental funds. A budgetary comparison schedule has been provided for the General and Human Services funds to demonstrate compliance with these budgets.

OVERVIEW OF FINANCIAL STATEMENTS (cont.)

FUND FINANCIAL STATEMENTS (cont.)

Proprietary Funds: Services for which Sauk County charges customers a fee to provide are reported in proprietary funds. Sauk County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Sauk County uses enterprise funds to account for its Highway and Health Care Center. Internal service funds are an accounting device used to accumulate and allocate costs internally among Sauk County's various functions. Sauk County uses internal service funds to account for its self-insured deductible payments via the County Insurance Fund and self-insured workers compensation via the Workers Compensation Fund. The services provided by these funds benefit the business-type and governmental functions.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Highway and Health Care Center, both of which are considered major funds of Sauk County. The County Insurance and Workers Compensation Funds are reported as internal service funds in the proprietary fund financial statements.

Fiduciary Funds: Fiduciary funds are used to account for resources held in trust for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support Sauk County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE - THE GOVERNMENT-WIDE PRESENTATION

An analysis of the County's financial position begins with a review of the Statement of Net Assets and the Statement of Revenues, Expenses and Changes in Net Assets. These two statements report the County's net assets and changes therein. It should be noted that the financial position can also be affected by non-financial factors, including economic conditions, population growth and new regulations.

Governmental activities assets increased \$2.1 million, of which \$1.3 million was an increase in cash and investments. The change in assets also contained increases in taxes receivable of \$388,000 (with an equal increase in unearned revenues) and a total increase in other receivables of \$729,000, 47 percent of which relates to extension of loans to assist with recovery from the 2008 floods. There was also an increase in delinquent taxes receivable of \$132,000, or 3%, significant in that the increase is moderate considering the effect of the economy on collections. Governmental activities capital assets net of depreciation decreased \$1.11 million or about 1.23% due to the county capital asset acquisitions for 2010 amounting to less than the depreciation taken on existing assets. Total governmental activities liabilities decreased by \$490,000, or 0.93%. Liability categories remained stable, with decreases in noncurrent liabilities reflecting planned debt service payments of \$1.64 million. Finally, total governmental activities net assets have increased \$2.7 million, including favorable results compared to budget in interest collected on delinquent taxes (\$758,000), sales tax collections (\$572,000), certain nursing homes aids (\$343,000), and leaving a variety of staff positions unfilled when they became vacant.

Business-type activities total assets decreased by \$1.3 million. Decrease in taxes receivable totaled \$516,000. Related to the late-2009 completion of the Health Care Center construction project, restricted cash decreased by \$264,000 and capital assets net of depreciation decreased by \$394,000. Business-type activities liabilities decreased \$858,000, or 3.61%. Decreases in accounts payable liabilities totaled about \$380,000, and debt-related liabilities decreased \$460,000 with payment on Health Care Center construction debt commencing. Finally, total business-type activities net assets decreased \$443,000, or 3.25%.

UNAUDITED MANAGEMENT DISCUSSION AND ANALYSIS For the Year Ended December 31, 2010

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE - THE GOVERNMENT-WIDE PRESENTATION (cont.)

The County's governmental activities program revenues decreased by \$705,000 overall, or 2.97%. This consisted primarily of decreases of \$1.04 million in conservation operating and capital grants related to the completion of a variety of programs, including purchases of development rights, watershed protection and comprehensive planning. There was also a decrease in public safety revenues due to late 2010 closure of a portion of the jail housing prisoners from the State and near completion of 2008 flood relief assistance. The decreases were offset by an increase of \$869,000 in health and social services programming. Sales tax collections increased 7.32%, or \$487,000, and property taxes increased \$945,000, or 5.54%.

Governmental activities expenses decreased by only \$55,000 overall, just 0.10%. As described in the revenue section, conservation expenses decreased by \$657,000 due to the completion of certain programs. Health and social services expenses increased \$590,000 with additional grant funds. For the remaining functional areas, expense increases were primarily related to labor and benefit costs, which comprise nearly half of the County's non-capital expenditures. There were also decreases in interest and fiscal charges of over \$60,000.

The following graphs show the allocation of Sauk County's governmental activities revenues and expenses.

SAUK COUNTY

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE - THE GOVERNMENT-WIDE PRESENTATION (cont.)

Business-type activities program revenues decreased by 4.23% overall, \$539,000. This decrease was comprised primarily of a decrease in Highway operating grants from a decrease in state aids, much of which is the end of reimbursement for 2008 flood repairs. Health Care Center program revenues increased \$187,000 with moderately increased billing rates. Business-type activities property tax allocations remained nearly flat compared to 2009. Revenues also include \$111,000 gain on sale of Health Care Center properties at the location vacated in 2009.

Business-type activities expenses in total increased \$4.2 million, or 30.4%. This increase is related to the impact to the Highway budget of maintenance of infrastructure. Health Care Center costs increased \$1.7 million due to much higher depreciation and debt service on the new building, as well as \$650,000 for demolition of the vacated facility.

The following graphs show the allocation of Sauk County's business-type activities revenues and expenses.

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE - THE FUND PRESENTATION

Sauk County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of Sauk County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, Sauk County's governmental funds reported combined ending fund balances of \$34,113,814, an increase of \$2.3 million in comparison to the prior year. Approximately 88% of this total amount constitutes unreserved fund balance, which is available for spending at the government's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed 1) to provide for potentially uncollectible delinquent taxes (\$2,576,054), or noncurrent loans receivable (\$1,057,450), 2) to liquidate contracts of the prior period (\$166,664), 3) prepaid items and inventories (\$241,683), 4) to pay debt service (\$34,534), or 5) to generate income to provide scholarships (\$8,949).

General Fund: The general fund is the chief operating fund of Sauk County. At the end of the current fiscal year, unreserved fund balance of the general fund was \$21.4 million, while total fund balance reached \$24.2 million. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditure. Unreserved fund balance represents 68.5% of total general fund expenditures, while total fund balance represents 77.7% of that same amount.

The fund balance of Sauk County's general fund increased by \$1.48 million during the current fiscal year. Key factors in this growth are:

- > Interest collected on delinquent taxes exceeded budgeted projections by \$758,000.
- > Sales tax collections exceeded budget by \$572,000.
- > Transfer of Medicaid supplemental payment funds from the Health Care Center exceeded budget by \$343,000.

Human Services Fund: The other major governmental fund of Sauk County is the Human Services fund. This fund provides services in the area of child protection; juvenile offender assistance; economic support; outpatient mental health and substance abuse; serious mental illness community support; care management for the frail elderly, developmentally disabled and physically disabled; and adult protection. At the end of the current fiscal year, fund balance of the human services fund was \$2.0 million, of which 99% was unreserved. As a measure of the liquidity, fund balance represents 12.1% of total human services fund expenditures of \$16.5 million.

The fund balance of Sauk County's human services fund increased by \$407,000 during the current fiscal year. This included an increase in revenues compared to the prior year of \$480,000 in intergovernmental and \$212,000 in property taxes. An accompanying increase in expenditures of \$280,000 was less than expected due to volatile, high-cost lines, such as institutional care, ending the year favorable to budget.

UNAUDITED MANAGEMENT DISCUSSION AND ANALYSIS For the Year Ended December 31, 2010

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE - THE FUND PRESENTATION (cont.)

As of the end of the current fiscal year, Sauk County's enterprise funds reported combined ending net assets of \$12.6 million, a decrease of \$270,000 in comparison to the prior year. Approximately 35.8% of this total amount constitutes unrestricted net assets, which is available for spending at the government's discretion. The majority of the remainder of net assets is invested in capital assets, net of related debt.

Highway Fund: The highway fund reports the operations of Sauk County to maintain the county's roadways and contract with the state and other local municipalities to maintain their roadways. At the end of the current fiscal year, unrestricted net assets of the highway fund was \$3.2 million, while total net assets reached \$9.1 million. The net assets increased from the prior year by \$693,000, of which \$175,000 is labor and \$432,000 is equipment costs being less than expected.

Health Care Center Fund: The health care center fund contains the operations of the county's nursing home. In November of 2009, Sauk County occupied a new nursing home facility in the City of Reedsburg. This facility replaces a larger group of buildings located at the county farm. In 2010, net assets decreased \$962,000, largely related to demolition of the vacated facility and sale of reusable items, netting an expense of \$540,000. Estimated debt service also exceeded budget by \$86,000 with completion of the financing in July, 2010. Other revenues and expenses varied from budget as staff settled in to the new facility.

BUDGETARY HIGHLIGHTS

Sauk County adopts a budget for all funds of the County at the department level of expenditure. Throughout the year, as additional information becomes available, such as the receipt of funds not originally budgeted or not receiving funds that were anticipated in the original budget, budget amendments can be made. All unspent appropriations lapse to undesignated fund balances at year-end unless specifically re-appropriated by County Board action.

SUPPLEMENTARY APPROPRIATIONS

General Fund: Supplementary appropriations totaled \$2,800,371, much of which (\$2.16 million) was carryforward of funds previously appropriated in 2009 for projects that were not completed. Most of the remainder was appropriation of additional grant funds received.

Special Revenue Funds: Supplementary appropriations totaled \$2,061,203, \$1,628,087 of which was creation of budgets for appropriating flood relief funds. The remainder was carryforward of funds previously appropriated in 2009 for projects that were not completed or uses of segregated fund balance for specific programs.

Debt Service Fund: Supplementary appropriations totaled a decrease of \$38, due to less interest earned on invested funds than anticipated.

Building Projects Fund: Supplementary appropriations totaled \$5,000, all of which was carryforward of funds previously appropriated in 2009 for projects that were not completed.

Enterprise Funds: Supplementary appropriations totaled \$302,572, most of which was appropriation of additional grant funds.

BUDGETARY HIGHLIGHTS (cont.)

SUPPLEMENTARY APPROPRIATIONS (CONT.)

Internal Service Funds: Supplementary appropriations totaled a net decrease of \$9,293, which was a decrease to the insurance fund also related to interest earned on invested funds being less than anticipated (\$11,424), and additional funds for workers compensation administration (\$2,131).

Agency Funds: Supplementary appropriations totaled \$8,856, which was Dog License Fund use of fund balance and appropriating funds for transfer of Alice in Dairyland funds to the General Fund.

BUDGET TO ACTUAL COMPARISONS – MAJOR GOVERNMENTAL FUNDS

Sauk County's general fund budget was constructed to use \$2.0 million of general fund balance. Slightly more than \$1.0 million of this was budgeted use in the originally adopted budget for contingent costs, such as less vacancy and turnover of staff than expected; these funds were not needed. An additional \$220,000 was the County's match for a federal grant to extend fiber optics throughout the County. The remaining \$1.0 million was for expenditure of previously received grants funds or previously appropriated funds for capital outlays. Capital projects were either deferred to 2011 or accomplished within budget, showing a favorable budget variance of \$1.7 million. Also, with the lagging economy and likelihood of difficult future budgets, position cuts and strategic decisions to leave vacant positions vacant generated other positive budget variances. In all, general fund balance increased by \$1.5 million.

The human services fund balance increased by \$407,000, even though the amended budget anticipated a decrease in fund balance of \$260,000. Although most revenue lines lagged budget projections, intergovernmental revenues exceeded projections. Overall expenditures were less than expected due to volatile, high-cost lines, such as institutional care, ending the year favorable to budget.

CAPITAL ASSETS AND DEBT

CAPITAL ASSETS

Sauk County's investment in governmental activities capital assets as of December 31, 2010 amounted to \$88.8 million (net of depreciation), a net decrease of \$1.1 million. This investment in capital assets includes land, buildings, improvements, machinery and equipment. Major additions were reconstructed roadways and other infrastructure totaling \$1.5 million (including construction in progress).

The County's investment in business-type activities capital assets as of December 31, 2010 was \$21.8 million (net of depreciation), a net decrease of \$394,000. Increases consisted primarily of routine highway equipment replacement.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Sauk County's years of steady growth in equalized valuations have slowed in recent years, and the County saw a decrease in valuation in 2010 of 1.50% exclusive of tax incremental financing districts. The County is carefully monitoring this trend. The Wisconsin Dells/Lake Delton area, including six tax incremental financing districts in these municipalities, continues to be a strong driver for Sauk County. Also, an artery from Madison to Wisconsin Dells through Sauk County is Highway 12, which is scheduled to be widened and expanded over the next few years. With this growth comes additional costs for infrastructure maintenance and government services that are provided by the County.

Sauk County's 2011 budget includes a 0.45% decrease in property tax dollars levied, from \$28.7 million to \$28.5 million. Total expenditures, for all County funds, are budgeted to be \$78.8 million, including approximately \$1.0 million for extension of the County's fiber optics network to other local units of government within the County. In development of the budget, all known factors were included in the projections. As additional information becomes available throughout the year, the budget will likely be amended by the County Board.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended December 31, 2010

| | |
|--|--------------|
| Net change in fund balances - total governmental funds | \$ 2,259,551 |
|--|--------------|

Amounts reported for governmental activities in the statement of activities
are different because:

Governmental funds report capital outlays as expenditures. However, in the
statement of net assets the cost of these assets is capitalized and they are
depreciated over their estimated useful lives with depreciation expense reported
in the statement of activities.

| | |
|---|-------------|
| Capital asset additions are reported as capital outlay in the fund financial statements, but are capitalized in the government-wide financial statements | 1,585,297 |
| Some items reported as capital outlay in the fund financial statements are not capitalized in the government-wide statements | (242,026) |
| Depreciation is reported in the government-wide statements | (3,378,433) |
| Infrastructure financed by the highway fund | 1,245,925 |
| Net book value of assets retired | (318,997) |

Receivables not currently available are reported as unearned revenue in the fund financial
statements but are recognized as revenue when earned in the government-wide
financial statements.

| | |
|--------------------|----------|
| Government charges | 230 |
| Government grants | 44,582 |
| Investment income | 5,085 |
| Delinquent taxes | 66,149 |
| Loans | (43,440) |
| Other | 95 |

Debt and lease proceeds provide current financial resources to governmental funds,
but issuing these obligations increases long-term liabilities in the statement of net
assets. Repayment of principal is an expenditure in the governmental funds, but the
repayment reduces long-term liabilities in the statement of net assets.

| | |
|------------------|-----------|
| Principal repaid | 1,640,000 |
|------------------|-----------|

Some expenses in the statement of activities do not require the use of
current financial resources and, therefore, are not reported as expenditures
in the governmental funds.

| | |
|-------------------------------|-----------|
| Compensated absences | (169,208) |
| Other postemployment benefits | (41,195) |
| Accrued interest on debt | 15,680 |
| Landfill post-closure care | 102,282 |

| | |
|--|------------------|
| Change in internal service fund net assets attributable to governmental activities | <u>(187,222)</u> |
|--|------------------|

| | |
|--|----------------------------|
| CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES | <u>\$ 2,584,355</u> |

SAUK COUNTY

NOTES TO FINANCIAL STATEMENTS December 31, 2010

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Sauk County, Wisconsin conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

A. REPORTING ENTITY

This report includes all of the funds of Sauk County. The reporting entity for the county consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. A legally separate organization should be reported as a component unit if the elected officials of the primary government are financially accountable to the organization. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to or burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government.

A legally separate, tax exempt organization should be reported as a component unit of a reporting entity if all of the following criteria are met: (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents; (2) the primary government is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization; (3) the economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government. Blended component units, although legally separate entities, are, in substance, part of the government's operations and are reported with similar funds of the primary government. Discretely presented component units are reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that they are legally separate from the primary government.

Discretely Presented Component Unit

Sauk County Housing Authority

The government-wide financial statements include the Sauk County Housing Authority (Housing Authority) as a component unit. The Housing Authority is a legally separate organization. The board of the Housing Authority is appointed by the county board chairperson. Wisconsin Statutes provide for circumstances whereby the county can impose its will on the Housing Authority, and also create a potential financial benefit to or burden on the county. See Note IV.J. As a component unit, the Housing Authority's financial statements have been presented as a discrete column in the financial statements. The information presented is for the fiscal year ended June 30, 2010. Separately issued financial statements of the Sauk County Housing Authority may be obtained from the Housing Authority's office at 708 Elizabeth Street, Baraboo, WI 53913.

SAUK COUNTY

NOTES TO FINANCIAL STATEMENTS December 31, 2010

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Government-Wide Financial Statements

In June 2007, the GASB issued statement No. 51 – *Accounting and Financial Reporting for Intangible Assets*. This statement establishes accounting and reporting requirements for intangible assets to reduce inconsistencies among governments, thereby enhancing the comparability of such assets among state and local governments.

The county made the decision to implement this standard effective January 1, 2010. There was no significant impact to these financial statements.

The statement of net assets and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The county does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Fund Financial Statements

Financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, net assets/fund equity, revenues, and expenditure/expenses.

Separate financial statements are provided for governmental funds and proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

Funds are organized as major funds or non-major funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the county or meets the following criteria:

1. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
2. The same element of the individual governmental fund or enterprise fund that met the 10% test is at least 5% of the corresponding total for all governmental and enterprise funds combined.
3. In addition, any other governmental or proprietary fund that the county believes is particularly important to financial statement users may be reported as a major fund.

The county reports the following major governmental funds:

General Fund – accounts for the county's primary operating activities. It is used to account for all financial resources except those required to be accounted for in another fund.

Human Services Fund – accounts for resources legally restricted to supporting expenditures for the human services program.

The county reports the following major enterprise funds:

Highway Fund – accounts for the maintenance and repair of infrastructure assets in the county.

Health Care Center Fund – accounts for operations of the county's health care facility.

The county reports the following non-major governmental and enterprise funds:

Special Revenue Funds – used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes.

- Aging and Disability Resource Center
- County Jail
- Land Records Modernization
- Landfill Remediation
- Forest Management
- Baraboo Range
- Drug Seizures
- Community Development Block Grant – Economic Development (CDBG-ED)
 - Revolving Loans
- Community Development Block Grant – Flood Relief Small Business (CDBG FRSB) Revolving Loans
- Community Development Block Grant – Emergency Assistance Program (CDBG EAP)
- Alice in Dairyland
- Dog License

Debt Service Fund – accounts for resources accumulated and payments made for principal and interest on long-term debt other than enterprise fund debt.

Capital Projects Fund – used to account for financial resources to be used for the acquisition or construction of equipment and/or major capital facilities.

- Building Projects

In addition, the county reports the following fund types:

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the county, or to other governmental units, on a cost-reimbursement basis.

- Self-Insurance
- Workers' Compensation

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements

The government-wide statement of net assets and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and unearned revenue. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Unbilled receivables are recorded as revenues when services are provided.

The business-type activities follow all pronouncements of the Governmental Accounting Standards Board, and have elected not to follow Financial Accounting Standards Board guidance issued after November 30, 1989.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

NOTES TO FINANCIAL STATEMENTS December 31, 2010

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the county considers revenues to be available if they are collected within 60 days of the end of the current fiscal period except for human services reimbursable grants, for which available is defined as 180 days. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and deferred revenues. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

Sales taxes are recognized as revenues in the year in which the underlying sales relating to it take place.

Intergovernmental aids and grants are recognized as revenues in the period the county is entitled to the resources and the amounts are available. Amounts owed to the county which are not available are recorded as receivables and deferred revenues. Amounts received prior to the entitlement period are also recorded as deferred revenues.

Special assessments are recorded as revenues when they become measurable and available as current assets. Annual installments due in future years are reflected as receivables and deferred revenues. Delinquent special assessments being held for collection by the county are reported as receivables and reserved fund balance in the general fund.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, special assessments and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

The county reports deferred revenues on its governmental funds balance sheet. Deferred revenues arise from taxes levied in the current year which are for subsequent year's operations. For governmental fund financial statements, deferred revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when resources are received before the county has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the county has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and revenue is recognized.

NOTES TO FINANCIAL STATEMENTS December 31, 2010

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

Fund Financial Statements (cont.)

Proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note. Agency funds follow the accrual basis of accounting and do not have a measurement focus.

The enterprise funds follow all pronouncements of the Governmental Accounting Standards Board, and have elected not to follow Financial Accounting Standards Board guidance issued after November 30, 1989. The proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Highway Fund and Health Care Center are charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

D. ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY

1. Deposits and Investments

For purposes of the statement of cash flows, the county considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

Investment of county funds is restricted by state statutes. Available investments are limited to:

- a. Time deposits in any credit union, bank, savings bank or trust company maturing in three years or less.
- b. Bonds or securities of any county, city, drainage district, technical college district, village, town, or school district of the state. Also, bonds issued by a local exposition district, a local professional baseball park district, a local professional football stadium district, a local cultural arts district, the University of Wisconsin Hospitals and Clinics Authority, or the Wisconsin Aerospace Authority.
- c. Bonds or securities issued or guaranteed by the federal government.
- d. The local government investment pool.

D. ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY (cont.)

1. Deposits and Investments (cont.)

- e. Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
- f. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
- g. Repurchase agreements with public depositories, with certain conditions.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of the failure of the custodian holding the county's deposits and investments, the deposits and investments may not be returned. County policy minimizes this risk by requiring all principal and interest outside the Wisconsin Local Government Investment Pool to be insured or collateralized to their full value. Any bank account including certificates of deposit with a balance greater than the bank's deposit insurance or the State Deposit Guarantee Fund must be collateralized at 100% of the collateral's market value by written agreement with the bank. The county did have uncollateralized deposits at December 31, 2010 due to tax collections.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. County policy limits investments to the unrated Wisconsin Local Government Investment Pool or investments rated in the highest or second highest rating categories as issued by nationally recognized statistical rating organizations, unless properly collateralized or insured.

Interest Rate Risk

The county's investment policies seek to ensure preservation of capital in the county's overall portfolio. Return on investment is of secondary importance to safety of principal and liquidity. County policy limits the county to investments with a remaining maturity of no more than three years. The policy further limits the weighted average maturity of the county's investment portfolio to no more than one year.

Concentration of Credit Risk

Concentration of credit risk is the risk associated with a lack of diversification of having significant funds invested in a few individual issuers, thereby exposing the county to greater risks resulting from adverse economic, regulatory, geographic or credit developments. County policy states that the county will generally invest no more than 5% of its funds that are not properly collateralized or insured in a single issuer. Obligations of the U.S. government, mutual funds, external investment pools, and other pooled investments are excluded from this requirement.

D. ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY (cont.)

1. Deposits and Investments (cont.)

Foreign Currency Risk

The county does not invest in securities of foreign issuers or in securities denominated in a currency other than the U.S. dollar.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. The difference between the bank balance and carrying value is due to outstanding checks and/or deposits in transit.

The Wisconsin Local Government Investment Pool (LGIP) is part of the State Investment Fund (SIF), and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At December 31, 2010, the fair value of the county's share of the LGIP's assets was substantially equal to the amount as reported in these statements.

See Note IV. A. for further information.

2. Receivables

Property taxes are levied in December on the assessed value as of the prior January 1. In addition to property taxes for the county, taxes are collected for and remitted to the state and municipal governments as well as the local school district and technical college district. Taxes for the state billed in the current year for the succeeding year are reflected as receivables and due to other taxing units on the accompanying agency fund statement of fiduciary net assets.

2. Receivables (cont.)

Property taxes are due, in the year subsequent to levy, on the last day of January, and collected by local treasurers through that date, at which time unpaid taxes are assigned to the county and appropriate receivables and payables are recorded. Tax collections become the responsibility of the county and taxes receivable include unpaid taxes levied for all taxing entities within the county. The county makes restitution to local districts in August for payables recorded at the settlement date without regard to collected funds. A lien is placed on all properties for which a portion of the current tax levy remains unpaid as of September 1. The interest and penalties on taxes not paid within 60 days of the end of the current fiscal period is shown as unearned revenue until it is received in cash.

Accounts receivable have been shown net of an allowance for uncollectible accounts. No allowance for uncollectible delinquent taxes has been provided because of the county's demonstrated ability to recover any losses through the sale of the applicable property.

All CDBG loans have been originally funded by external grant funds. Loans receivable issued from the CDBG-ED and CDBG-FRSB revolving loan funds are shown net of an allowance for uncollectible accounts. The principal balances are also shown as unearned revenues to be recognized when repayment is received. Loans receivable issued from the CDBG-EAP fund are considered forgivable loans. A portion of loan principal is forgiven each year so long as the recipient of the loans remains in business. Any remaining principal is due if the business ceases operation. Since these loans are intended to not be repaid, the grant revenue was recognized at the date of loan issuance.

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net assets. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

The county has a 0.5% sales tax which is collected by the State of Wisconsin and remitted to the county monthly. Sales tax is accrued as a receivable when the underlying sale relating to it takes place. At December 31, 2010, the county has accrued two months of subsequent year collections as receivable.

In the governmental fund financial statements, advances to other funds are offset equally by a fund balance reserve account which indicates that they do not constitute expendable available financial resources and, therefore, are not available for appropriation.

3. Inventories and Prepaid Items

Governmental fund inventory items are charged to expenditure accounts when purchased. Year-end inventory was not significant. Proprietary fund inventories are generally used for construction and for operation and maintenance work. They are not for resale. They are valued at cost using the first-in, first-out method, and charged to construction and/or operation and maintenance expense when used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted Assets

Mandatory segregation of assets are presented as restricted assets. Such segregation is required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified. The excess of restricted assets over current liabilities payable from restricted assets will be used first for retirement of related long-term debt. The remainder, if generated from earnings, is shown as restricted net assets.

5. Capital Assets

Government-Wide Statements

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$5,000 for general capital assets and \$5,000 - \$80,000 for infrastructure assets, and an estimated useful life in excess of one year. All capital assets are valued at historical cost, or estimated historical cost if actual amounts are unavailable. Donated fixed assets are recorded at their estimated fair value at the date of donation.

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. For tax-exempt debt, the amount of interest capitalized equals the interest expense incurred during construction netted against any interest revenue from temporary investment of borrowed fund proceeds. No net interest was capitalized during the current year. The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced, retired or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

Depreciation and amortization of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation and amortization reflected in the statement of net assets. Depreciation and amortization are provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

| | |
|-------------------------|--------------|
| Buildings | 50-150 Years |
| Building Improvements | 5-80 Years |
| Land Improvements | 20-50 Years |
| Machinery and Equipment | 5-50 Years |
| Vehicles | 5-20 Years |
| Infrastructure | 10-100 Years |
| Intangibles | 10-30 Years |

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY (cont.)

5. Capital Assets (cont.)

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

6. Other Assets

In governmental funds, debt issuance costs are recognized as expenditures in the current period. For the government-wide and the proprietary fund type financial statements, debt issuance costs are deferred and amortized over the term of the debt issue.

7. Compensated Absences

Under terms of employment, employees are granted sick leave, vacation, executive leave, and comp time in varying amounts. Only benefits considered to be vested are disclosed in these statements.

All vested vacation, sick, executive, compensatory and holiday pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, or are payable with expendable available resources.

Payments for vacation, sick, executive, compensatory and holiday leaves will be made at rates in effect when the benefits are used. Accumulated compensated absence liabilities at December 31, 2010 are determined on the basis of 2011 current salary rates and include salary related payments.

8. Long-Term Obligations

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable, and accrued compensated absences.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts (plus any premiums) is reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

For the government-wide statements and proprietary fund statements, bond premiums and discounts are deferred and amortized over the life of the issue using the effective interest method. Gains or losses on prior refundings are amortized over the remaining life of the old debt, or the life of the new debt, whichever is shorter. The balance at year end for both premiums/discounts and gains/losses, as applicable, is shown as an increase or decrease in the liability section of the balance sheet.

The county does not engage in conduit debt transactions.

9. Claims and Judgments

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditure for claims and judgments is only reported in governmental funds if it has matured. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred. There were no significant claims or judgments at year end.

10. Equity Classifications

Government-Wide Statements

Equity is classified as net assets and displayed in three components:

1. Invested in capital assets, net of related debt – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted net assets – Consists of net assets with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
3. Unrestricted net assets – All other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

When both restricted and unrestricted resources are available for use, it is the county’s policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved. Reserved fund balance is that portion of fund balance that is not available for the subsequent year’s budget due to legal restrictions or resources which are not available for current spending. Unreserved fund balance includes funds set aside by management for specific uses, which are labeled “designated”. The balance of unreserved fund balance is labeled “undesignated”, which indicates it is available for appropriation. Proprietary fund equity is classified the same as in the government-wide statements.

NOTE II – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET ASSETS

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets.

Long-term liabilities applicable to the county's governmental activities are not due and payable in the current period, and accordingly, are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities—both current and long-term—are reported in the statement of net assets.

| Workers compensation | 241,651 |
| Post employment benefits | 225,292 |
| Landfill post-closure liability | 2,507,460 |
| Accrued interest | <u>185,105</u> |
| Combined Adjustment for Long-Term Liabilities | <u>\$ 24,642,069</u> |

NOTE III – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY INFORMATION

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note I. C.

A budget has been adopted for the general fund and all other funds.

The budgeted amounts presented include any amendments made (or the budgeted amounts presented are as presented in the original budget and no amendments were adopted during the year). The finance committee may authorize transfers of budgeted amounts within departments. Transfers between departments and changes to the overall budget must be approved by the finance committee or a two-thirds board action, if the transfer exceeds 10% of the department's budget.

Appropriations lapse at year end unless specifically carried over. Carryovers to the following year were \$1,765,080 in the general fund. Budgets are adopted at the department level of expenditure.

B. EXCESS EXPENDITURES OVER APPROPRIATIONS

The county controls expenditures at the department level.

Some individual departments experienced expenditures which exceeded appropriations. The detail of those items can be found in the county's year-end budget to actual report.

C. DEFICIT BALANCES

Generally accepted accounting principles require disclosure of individual funds that have deficit balances at year end.

As of December 31, 2010, the following individual fund held a deficit balance:

| <u>Fund</u> | <u>Amount</u> | <u>Reason</u> |
|-------------|---------------|----------------------------------|
| Dog license | \$ 5,401 | License sales lagged projections |

D. LIMITATIONS ON THE COUNTY'S TAX LEVY RATE AND ITS ABILITY TO ISSUE NEW DEBT

As part of Wisconsin's State Budget Bill (1993 Act 16), new legislation was passed that limits the county's future tax levy rates. Generally, the county is limited to its 1992 tax levy rate, based upon current legislation (State Statutes 59.605(2)). However, this limitation does not affect debt authorized prior to August 12, 1993 or refunding bonds.

The county may also exceed the limitation by holding a referendum (according to state statutes) authorizing the county board to approve a higher rate. The county may also exceed the rate if it increases the services it provides due to a transfer of these services from another governmental unit.

The State Budget Bill also imposes restrictions on the county's ability to issue new debt. Generally, referendum approval is required to issue unlimited tax general obligation debt, with the following exceptions:

- > Refunding debt issues
- > 75% approval by the county board
- > A reasonable expectation that the new debt can be accommodated within the existing tax rate
- > Other exceptions as listed in State Statutes Section 67.045

The county is in compliance with the limitation.

E. LIMITATIONS ON THE COUNTY'S TAX LEVY

As part of Wisconsin's Act 28 (2009), legislation was passed that limits the county's future tax levies. Generally the county is limited to its prior tax levy dollar amount (excluding TIF districts), increased by the greater of the percentage change in the county's equalized value due to new construction, or 3.00% for the 2009 levy collected in 2010 and 3% for the 2010 levy collected in 2011. Changes in debt service from one year to the next are generally exempt from this limit. The levy limit is set to expire after the 2010 levy.

| Total Cash and Investments | <u>\$ 34,198,455</u> | | |

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for interest bearing accounts and unlimited for noninterest bearing accounts.

Bank accounts are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. However, due to the relatively small size of the Guarantee Fund in relationship to the total deposits covered and other legal implications, recovery of material principal losses may not be significant to individual municipalities. This coverage has been considered in computing custodial credit risk.

The county maintains collateral agreements with some of its banks. As of December 31, 2010, the banks had pledged various government securities in the amount of \$6,437,684 to secure the county's deposits.

B. RECEIVABLES

All receivables as of year end are expected to be collected within one year except for the funds listed as follows:

| | General | Non-Major Funds | Health Care Center |
|--|--------------|--------------------|-----------------------|
| Amounts not expected to be collected within one year | \$ 1,454,001 | \$ 1,263,817 | \$ 9,772 |

Revenues of the county are reported net of uncollectible amounts. Total uncollectible amounts related to revenues of the current period are as follows:

| | |
|--|------------|
| Uncollectibles related to the Health Care Center | \$ 164,000 |
|--|------------|

Governmental funds report *unearned revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Property taxes levied for the subsequent year are not earned and cannot be used to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *unearned revenue* reported in the governmental funds were as follows:

| | Unavailable | Unearned | Totals |

B. RECEIVABLES (cont.)

Delinquent property taxes purchased from other taxing authorities are reflected as reservations of fund balance at year-end. Delinquent property taxes collected within sixty days subsequent to year-end are considered to be available for current expenditures and are therefore excluded from the reservation of fund balances. For the year ended December 31, 2010, such collections aggregated \$636,250 of which \$141,776 was levied by the county. Delinquent property taxes levied by the county are reflected as deferred revenue and are excluded from the fund balance until collected. At December 31, 2010, delinquent property taxes by year levied consists of the following:

| | Total | County Levied | County Purchased |

| Governmental activities | Business-type activities | \$ - |
| Business-type activities | Governmental activities | (4,103,232) |
| Total | | <u>\$ (4,103,232)</u> |

All interfund balances are due within one year.

The principal purpose of these interfunds is a result of the general fund holding cash for operational revenues and expenditures in other funds.

All remaining balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

For the statement of net assets, interfund balances which are owed within the governmental activities or business-type activities are netted and eliminated.

The following is a schedule of interfund transfers:

| <u>Fund Transferred To</u> | <u>Fund Transferred From</u> | <u>Amount</u> | <u>Principal Purpose</u> |
|---|------------------------------|---------------------|--|
| General fund | Health care center | \$ 643,124 | Transfer ITP grant |

| Governmental activities | Business-type activities | \$ 1,889,049 |
| Business-type activities | Governmental activities | - |
| Total | | <u>\$ 1,889,049</u> |

Generally, transfers are used to (1) move revenues from the fund that collects them to the fund that the budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

For the statement of activities, interfund transfers within the governmental activities or business-type activities are netted and eliminated.

General Obligation and Other Debt

All general obligation notes and bonds payable are backed by the full faith and credit of the county. Notes and bonds in the governmental funds will be retired by future property tax levies accumulated by the debt service fund. Business-type activities debt is payable by revenues from user fees of those funds or, if the revenues are not sufficient, by future tax levies.

Current Refunding

On July 6, 2010, the county issued \$4,925,000 in general obligation bonds with an average interest rate of 4.04%, as well as \$75,000 of unused bond proceeds, to current refund \$5,000,000 of outstanding bond anticipation notes. The net proceeds of \$4,925,000 (after payment of \$44,350 in underwriting fee, insurance, and other issuance cost plus \$44,426 reoffering premium and \$76 for further debt payment) were used to prepay the outstanding debt service requirements on the old bonds.

The cash flow requirement on the refunded note prior to the refunding was \$5,165,000 through 2011. The cash flow requirements on the 2010 notes are \$7,985,569 from 2011 through 2027. The refunding resulted in an economic loss (difference between the present values of the debt service payments on the old and new debt) of \$5,108.

Other Debt Information

Estimated payments of compensated absences and the landfill post-closure liability are not included in the debt service requirement schedules. The compensated absences liability attributable to governmental activities will be liquidated primarily by the general fund. See Note IV.H. for more information about the landfill post-closure liability.

Prior-Year Defeasance of Debt

In prior years, the county defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the county's financial statements. At December 31, 2010, \$15,480,000 of bonds outstanding are considered defeased.

G. LEASE DISCLOSURES

The county has no material leases as lessee or lessor.

H. CLOSURE AND POSTCLOSURE CARE COST

State and federal laws and regulations require the county to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 40 years after closure. Although closure and postclosure care costs are paid only near or after the date that the landfill stops accepting waste, the county reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. The \$2,507,460 reported as landfill closure and postclosure care liability at December 31, 2010, represents the cumulative amount reported to date based on the use of 100% of the estimated capacity of the landfill less amounts actually paid for postclosure. These amounts are based on what it would cost to perform all postclosure care in 2010. The county did cease accepting waste in 2006, and closure activities were completed in 2007. Actual cost may be higher due to inflation, changes in technology, or changes in regulations.

The county is required by state and federal laws and regulations to make annual contributions to the Wisconsin Department of Natural Resources (DNR) to a trust to finance closure and postclosure care. The county is in compliance with these requirements. \$2,452,553 is held with the DNR for postclosure care. The county expects that future inflation costs will be paid from interest earnings. However, if interest earnings are inadequate or additional postclosure care requirements are determined (due to changes in technology or applicable laws or regulations, for example) these costs may need to be covered by from future tax revenues.

J. COMPONENT UNIT

This report contains the Sauk County Housing Authority (Housing Authority), which is included as a component unit. Financial information is presented as a discrete column in the statement of net assets and statement of activities.

In addition to the basic financial statements and the preceding notes to financial statements which apply, the following additional disclosures are considered necessary for a fair presentation.

a. Basis of Accounting/Measurement Focus

The Housing Authority follows the full accrual basis of accounting and the flow of economic resources measurement focus.

b. Deposits and Investments

At year end, the carrying amount of the Housing Authority's deposits was \$324,745 and the bank balance was \$344,210. The Housing Authority has no deposits with financial institutions in excess of federal depository insurance limits that were held in uncollateralized accounts and not covered by the Wisconsin State Deposit Guarantee Fund. The Housing Authority reported no investments outside of its bank deposits.

c. Cash and Cash Equivalents

The Housing Authority considers cash equivalents to include certificates of deposits having an original maturity of three months or less.

f. Employee Retirement System

All eligible Housing Authority employees participate in the Wisconsin Retirement System ("System"), a cost-sharing defined benefit multiple-employer public employee retirement system (PERS). The payroll for employees covered by the System for the year ended December 31, 2009 was \$182,285; the Housing Authority's total payroll was \$225,803.

The total required contribution for the year ended December 31, 2009 was \$18,958 or 10.4% of covered payroll. Of this amount, 4.5% was contributed by the employer for the current year. Total contributions for the years ending December 31, 2008 and 2007 were \$20,305 and \$19,198, respectively, equal to the required contributions for each year.

g. Net Assets

Net assets reported on the government-wide statement of net assets at June 30, 2010 includes the following:

| | |
|--|---------------------|
| Invested in capital assets, net of related debt | |
| Other capital assets, net of accumulated depreciation | \$ 2,432,532 |

h. Contingent Liability

Sauk County Housing Authority is also a general partner in several limited partnerships which it manages and therefore receives a management fee. The costs paid to acquire ownership in the limited partnerships were minimal and has been expensed to the management fund. The partnerships that Sauk County Housing Authority is a general partner in are as follows:

| Name | Ownership Percent | Outstanding Liabilities at 06-30-10 |
|---|-------------------|-------------------------------------|
| Tower Street Limited Partnership | 1% | \$ 623,150 |
| Kolan Kourt Limited Partnership | .01% | 406,585 |

i. Investment in Joint Venture

On June 23, 2007, the Authority purchased land for a tax credit housing project, Highpointe Commons Senior Housing, LLC, of which the Authority is the managing member for Highpointe Commons Ownership Group, LLC, which has a .10% company interest in the project. The Total investment was \$209,998 with Sauk County contributing \$100,000 to the Authority toward the purchase of the land.

j. Restatement of Net Assets

As of June 30, 2009, the Authority had additional unrecorded accounts receivable from Tower Street Apartments of \$17,850 and Kolan Kourt Apartments of \$18,617. Therefore, net assets are restated as follows:

| | |
|--|---------------------|
| Net assets per prior year audit, June 30, 2009 | \$ 1,841,984 |
| Recording of additional accounts receivable | <u>23,467</u> |
| Net Assets as Restated, June 30, 2009 | <u>\$ 1,865,451</u> |

k. Risk Management

The Housing Authority is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors; and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE V – OTHER INFORMATION

A. EMPLOYEES' RETIREMENT SYSTEM

All eligible county employees participate in the Wisconsin Retirement System (System), a cost-sharing multiple-employer defined benefit public employee retirement system (PERS). All permanent employees expected to work at least 600 hours a year are eligible to participate in the System. Covered employees in the General category are required by statute to contribute 6.2% of their salary (3.2% for Executives and Elected Officials, 5.5% for Protective Occupations with Social Security, and 3.9% for Protective Occupations without Social Security) to the plan. Employers generally make these contributions to the plan on behalf of employees. Employers are required to contribute an actuarially determined amount necessary to fund the remaining projected cost of future benefits.

The payroll for county employees covered by the system for the year ended December 31, 2010 was \$27,558,807; the employer's total payroll was \$27,319,769. The total required contribution for the year ended December 31, 2010 was \$3,347,695 or 12.2% of covered payroll. Of this amount, 100% was contributed by the employer for the current year. Total contributions for the years ending December 31, 2009 and 2008 were \$3,199,700 and \$2,907,254, respectively, equal to the required contributions for each year.

NOTES TO FINANCIAL STATEMENTS December 31, 2010

NOTE V – OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Employees who retire at or after age 65 (62 for elected officials, 54 for protective occupation employees with less than 25 years of service, and 53 for protective occupation employees with more than 25 years of service) are entitled to receive a retirement benefit. Employees may retire at age 55 (50 for protective occupation employees) and receive actuarially reduced benefits. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor. Final average earnings is the average of the employee's three highest years' earnings. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and, by doing so, forfeit all rights to any subsequent benefit. For employees beginning participation on or after January 1, 1990 and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998 are immediately vested.

The System also provides death and disability benefits for employees. Eligibility for and the amount of all benefits is determined under Chapter 40 of Wisconsin Statutes. The System issues an annual financial report which may be obtained by writing to the Department of Employee Trust Funds, P.O. Box 7931, Madison, WI 53707-7931.

The pension related debt for the county as of December 31, 2010, was \$-0-.

B. RISK MANAGEMENT

The county is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; and health care of its employees. The county purchases commercial insurance to provide coverage for losses from the risks listed above. However, other risks, such as liability and workers' compensation are accounted for and financed by the county in an internal service fund – the county insurance fund.

Self Insurance

For liability claims, the uninsured risk of loss is \$10,000 per incident and \$10,000,000 in aggregate limits for a policy year. The county has purchased commercial insurance for claims in excess of those amounts. Settled claims have not exceeded the commercial coverage in any of the past three years.

For workers' compensation claims, the uninsured risk of loss is \$50,000 per incident and \$500,000 in the aggregate for a policy year. The county has purchased commercial insurance for claims in excess of those amounts. Settled claims have not exceeded the commercial coverage in any of the past three years.

All funds of the county participate in the risk management program. Amounts payable to the county insurance fund are based on estimates of the amounts necessary to pay prior and current year claims deductible.

B. RISK MANAGEMENT (cont.)

Public Entity Risk Pool

Wisconsin County Mutual Insurance Corporation

Sauk County and 54 other Wisconsin counties jointly participate in the Wisconsin County Mutual Insurance Corporation (WCMIC) for general and automobile liability insurance. The creation of WCMIC requires the establishment of capital reserves with each of the participating counties depositing amounts as specified in projected rates. This company began operation on January 1, 1988.

The county also participates in WCMIC for workers' compensation insurance. An actuarially determined estimate has been recorded for the county's retained liability, as well as for claims incurred but not reported at December 31, 2010. A total liability of approximately \$241,651 at December 31, 2010 was recorded as claims payable and reported in the Workers' Compensation internal service fund. The entire amount is also recorded in the governmental activities column of the government-wide statements of net assets. Changes in the claims loss liability follow:

| | Beginning Balance | Incurred Claims | Claims Paid/ Settled | Ending Balance |
|------|----------------------|--------------------|-------------------------|-------------------|
| 2010 | \$ 155,207 | \$ 181,292 | \$ 94,848 | \$ 241,651 |
| 2009 | 130,606 | 116,870 | 92,269 | 155,207 |

The governing body is made up of 19 directors elected by the participating counties. The governing body has authority to adopt its own budget and control the financial affairs of the corporation.

Summary financial information of WCMIC as of December 31, 2010 can be obtained directly from WCMIC's offices.

C. COMMITMENTS AND CONTINGENCIES

From time to time, the county is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the corporation counsel that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the county's financial position or results of operations.

The county has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

SAUK COUNTY

NOTES TO FINANCIAL STATEMENTS

NOTE V – OTHER INFORMATION (cont.)

C. COMMITMENTS AND CONTINGENCIES (cont.)

Funding for the operating budget of the county comes from many sources, including property taxes, grants and aids from other units of government, user fees, fines and permits, and other miscellaneous revenues. The State of Wisconsin provides a variety of aid and grant programs which benefit the county. Those aid and grant programs are dependent on continued approval and funding by the Wisconsin governor and legislature, through their budget processes. The State of Wisconsin is currently experiencing budget problems, and is considering numerous alternatives including reducing aid to local governments. Any changes made by the State to funding or eligibility of local aid programs could have a significant impact on the future operating results of the county.

The Original Sauk County Landfill is on the National Priority List by the Environmental Protection Agency (EPA). The required five year report was completed in 2010. The county will apply for de-listing as the need for monitoring has decreased. As required, the Wisconsin Department of Natural Resources (DNR) will continue to maintain oversight of the landfill recovery.

Currently, Sauk County is budgeting for costs associated with the monitoring and cleanup of the original Sauk County Landfill on an annual basis. The amount of potential liability to Sauk County for costs associated with the cleanup and monitoring of the Original Sauk County Landfill cannot be estimated at this time. This potential liability may be material to these financial statements. However, other parties that may be found to have been partially responsible may be liable for some of the costs. In 1993 and 1992, individual parties entered into agreements with the county regarding this issue and paid \$1,078,000 and \$950,000, respectively, to the county to release them from future costs. In 2010, the county spent \$102,282 of these funds on site remediation and cost recovery activities. These funds are held in the Landfill Remediation special revenue fund.

On March 24, 1994, the State of Wisconsin, Department of Natural Resources, with concurrence from U.S. EPA, formally executed and issued a source control record of decision. This decision included such items as continued monitoring of groundwater, regarding of the landfill surface to promote drainage off of the landfill cover, fencing, installation of a gas extraction system, imposing deed restrictions to prohibit disturbance of the landfill cover, maintenance of the final cover to prevent erosion and contingency plans in the event that compliance with groundwater quality standards is not achieved in the future. The total cost of the above decision cannot be reasonably determined at this date.

D. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

The county's group health insurance plan provides coverage to active employees and retirees (or other qualified terminated employees) at blended premium rates. This results in another postemployment benefit (OPEB) for the retirees, commonly referred to as an implicit rate subsidy.

Plan requirements are established through collective bargaining agreements and county policies and may be amended only through negotiations between the county and the union. The retirees pay 100% of the premium amounts under the plan.

SAUK COUNTY

NOTES TO FINANCIAL STATEMENTS December 31, 2010

NOTE V – OTHER INFORMATION (cont.)

D. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (cont.)

The county's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the county's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the district's net OPEB obligation to the Retiree Health Plan:

| | | |
|--|----|-----------------------|
| Annual required contribution | \$ | 101,162 |
| Interest on net OPEB obligation | | 9,550 |
| Adjustment to annual required contribution | | <u>(9,488)</u> |
| Annual OPEB cost | | 101,224 |
| Contributions made | | <u>(42,065)</u> |
| Increase in Net OPEB Obligation (Asset) | | 59,159 |
| Net OPEB Obligation – Beginning of Year | | <u>238,753</u> |
| Net OPEB Obligation – End of Year | \$ | <u><u>297,912</u></u> |

The county's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 and the past two previous years were as follows:

| Fiscal Year Ended | Annual OPEB Cost | Percentage of Annual OPEB Cost Contributed | Net OPEB Obligation |
|-------------------|------------------------|---|------------------------|
| 12/31/10 | \$ 101,162 | 41.6% | \$ 297,912 |
| 12/31/09 | 169,587 | 28.2% | 238,752 |
| 12/31/08 | 160,451 | 27.1% | 116,982 |

The funded status of the plans as of January 1, 2010, the most recent actuarial valuation date, was as follows:

| | | |
|---|----|-----------------------|
| Actuarial accrued liability (AAL) | \$ | 854,161 |
| Actuarial value of plan assets | | <u>-</u> |
| Unfunded Actuarial Accrued Liability (UAAL) | \$ | <u><u>854,161</u></u> |
| Funded ratio (actuarial value of plan assets/AAL) | | 0% |
| Covered payroll (active plan members) | | N/A |
| UAAL as a percentage of covered payroll | | N/A |

NOTE V – OTHER INFORMATION (cont.)

D. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (cont.)

Actuarial valuations of an ongoing plan involve estimates for the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan is understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 4.0% investment rate of return and an annual healthcare cost trend rate of 10.0% initially, reduced by decrements to an ultimate rate of 4.5% after 10 years. Both rates include a 3.0% inflation assumption. The plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The amortization period at December 31, 2010 was 30 years.

E. JOINT VENTURE

Sauk County, Richland County and Iowa County jointly operate the local Tri-County Airport (airport). The counties share in the annual operation of the airport equally.

The governing body is made up of members from each county. The governing body has authority to adopt its own budget and control the financial affairs of the airport. The county made a payment totaling \$16,135 to the airport for 2010. The county believes that they will make similar payments to the airport in the future.

Financial information of the airport as of December 31, 2010 is available directly from the county.

F. EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT-PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has approved GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, Statement No. 61, *The Financial Reporting Entity: Omnibus*, and Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. Application of these standards may restate portions of these financial statements.
