Aging and Disability Resource Center of Eagle Country
Baraboo Office
505 Broadway
Baraboo, WI 53913
(608) 355-3289

<p>What is a “personal care” agency?</p>	<p>Personal Care is “hands-on” care to help a person maintain his/her independence for as long as possible. Services provided by personal care agencies include:</p> <ul style="list-style-type: none"> ❖ Basic personal hygiene -- providing or assisting an individual with such needs as bathing (tub, bed bath, shower), washing hair, grooming, shaving, nail care, foot care, dressing, skin care, mouth care, and oral hygiene; ❖ Toileting, bowel, or bladder care -- assisting to and from bathroom, on and off toilet, commode, bedpan, urinal, or other assistive device used for toileting, changing incontinence supplies, following a toileting schedule, cleansing an individual or adjusting clothing related to toileting, emptying a catheter drainage bag or assistive device, ostomy care, and bowel care; ❖ Mobility, transfers, or repositioning -- assisting an individual with ambulation or transfers with or without assistive devices, turning an individual or adjusting padding for physical comfort or pressure relief, and encouraging or assisting with range-of-motion exercises; ❖ Nutrition -- preparing meals and special diets, assisting with adequate fluid intake or adequate nutrition, assisting with food intake (feeding), monitoring to prevent choking or aspiration, assisting with special utensils, cutting food, and placing food, dishes, and utensils within reach for eating ❖ Medication or oxygen management -- assisting with ordering, organizing, and administering oxygen or prescribed medications (including pills, drops, ointments, creams, injections, inhalers, and suppositories), monitoring for choking while taking medications, assisting with the administration of oxygen, maintaining clean oxygen equipment, and monitoring for adequate oxygen supply. <p>Personal Care services are paid for privately or by the Medicaid program. Medicare does not pay for Personal Care services.</p>
<p>What is the difference between “personal care” and “supportive home care”?</p>	<p>Supportive Home Care provides services around the person’s environment which may include laundry, grocery shopping, etc.; whereas, Personal Care is “hands-on” care to help the person maintain his/her independence for as long as possible. Most personal care tasks are administered to the person’s body such as bathing and grooming. Agencies may offer both Supportive Home Care and Personal Care services but typically Personal Care is more expensive than Supportive Home Care so it is important to understand what type of services you or your loved one needs.</p>

<p>What is “supportive home care”?</p>	<p>Supportive Home Care is an array of services designed to help consumers in their homes. Services are provided through a Supportive Home Care Agency that provides paid workers to come into the home of a consumer to complete services or tasks. Services may include but are not limited to:</p> <ul style="list-style-type: none"> • laundry services • cooking and meal preparation • house cleaning • lawn care and snow removal • companion services • running errands • respite services <p>With these services in place, consumers can remain in their home and either prolong or avoid an unwanted move to assisted living or a nursing home.</p>
<p>What is a “home health agency”?</p>	<p>An organization that provides part-time and intermittent skilled nursing and other therapeutic services on a visiting basis to people in their homes.</p> <p>Special Programs may include:</p> <ul style="list-style-type: none"> • Pain management • Medication instruction/management • Surgical aftercare • Wound and ostomy care lymphedema treatment • Incontinence and catheter care • Anti-coagulation therapy • Infusion and enteral therapy <p>Home health agencies may or may not provide personal care services in addition to skilled nursing services. Ask the agency for more information.</p>
<p>What is “companion care”?</p>	<p>Companion care encompasses a variety of services, including but not limited to help with shopping and errands, adult and senior transportation to and from doctor appointments and social events, and travel companionship. Companion care can also include supportive home care tasks.</p>
<p>What is “extended care”?</p>	<p>Extended care provides assistance for overnights, weekends, and/or 24-hour periods.</p>

<p>What is “palliative care”?</p>	<p>Palliative care is specialized medical care focusing on providing patients with relief from the symptoms, pain, and stress of serious and chronic illnesses such as cancer, cardiac disease such as congestive heart failure (CHF), chronic obstructive pulmonary disease (COPD), kidney failure, Alzheimer’s, Parkinson’s, and many more. Palliative care can be combined with curative care toward complete recovery.</p>
<p>What is a “hospice” agency?</p>	<p>Considered to be the model for quality, compassionate care for people facing a life-limiting illness or injury, hospice care involves a team-oriented approach to expert medical care, pain management, and emotional and spiritual support tailored to the patient's needs and wishes. Support is provided to the patient's loved ones as well. At the center of hospice and palliative care is the belief that each of us has the right to die pain-free and with dignity, and that our families will receive the necessary support to allow us to do so.</p> <p>Hospice focuses on caring, not curing, and in most cases care is provided in the patient's home. Hospice care also is provided in freestanding hospice centers, hospitals, and nursing homes and other long-term care facilities. Hospice services are available to patients of any age, religion, race, or illness. Hospice care is covered under Medicare, Medicaid, most private insurance plans, HMOs, and other managed care organizations.</p>
