

Badger History Group

In partnership with our web designer, Amy Pierquet of Waterfront Graphics, this project allowed us to successfully add a new portal to our webpage, titled RESOURCES, that allows us to showcase the value of our organization through the BHG archival collection and our mission – “to collect, preserve and share the histories of the former Badger Army Ammunition Plant and the Sauk prairie.” Specifically, under this portal, we added 6 new webpages in the dropdown: 1 for “Newsletters” with links to past issues; and 5 under “Maps”, where each webpage opens to an array of maps that represent the five overlapping stories of the former Badger plant area on Sauk Prairie.
