

Earth Week Celebration 2023 (Habitat for Humanity)

This event was a free showing of the Dr. Seuss movie, *The Lorax*, held at the Al Ringling Theater. It was originally slated as an outdoor performance, but due to weather concerns it was moved indoors. John Peruzzi made a Lorax costume as was promoting the event in Sauk county on April 21st and April 22nd, which included a reading of the book at the Boys and Girls Club. The movie was well attended and Habitat for Humanity Restore had the opportunity to share all the good that the store does for the environment. I believe that the message was heard and good time was had by all.
