

This project was the production of a 48 minute history film documenting 9 buildings listed on the National Register of Historic Places: *seven* within the Villages of Sauk City & Prairie du Sac, one in Town of POS, one in the Town of Honey Creek. This film was produced over the span of 9 months:

1. Selecting a host to be interviewed and filmed on each site. This raw footage was collected in May, 2022.
  2. Editing the raw footage down to 5 minutes for each site.
  3. Writing script for the introduction to the film, segways connecting each site, closing statement and credits.
  4. Collecting B Roll for each site and inserting into the segments.
  5. Add Background music throughout the film.
- DropFrame Productions and Horizon Studios were used to video and edit this film. The film produced is well done and should receive acclaim from the entire community when released.
