

Town of Greenfield - Forest Protection Zones

-  Greenfield twshp.shp
-  Forest Protection Boundary
-  Forest Interior Blocks
-  Forest Core

Forest Interior Blocks (FIB's) are substantially un-fragmented habitat for forest interior wildlife. Small non-forest openings of up to 20 acres are included.

The Forest Core is the lighter line drawn 200 M inside the FIB, but is extended to the FIB line where forest habitat in adjoining townships contributes to interior habitat.
