Prime Farmland - Slope Delineation

Legend

Prime Farmland

- Prime farmland
- Prime if drained
- Prime if drained and not flooded
- Prime if not flooded
- Not prime farmland

Generally, land capabilities 1-3 are considered prime farmland. However, with each land classification certain soils have limitations such as- slope, erosion, flooding, or drought. So a soil class of 1-3, which generally would be considered prime farmland may not be officially labeled as prime farmland, because it has one of the limitations listed above.
