

## Prime Farmland - Slope Delineation

### Legend

#### Prime Farmland

-  Prime farmland
-  Prime if drained
-  Prime if drained and not flooded
-  Prime if not flooded
-  Not prime farmland

#### Slope

-  Slopes > 12%
-  Slopes > 20%

#### Boundaries

-  Parcel Boundary
-  Town of Woodland
-  Town Boundary
-  County Boundary
-  River/Stream

#### Transportation

-  State Highway
-  County Highway
-  Town Road
-  Municipal Street
-  "400" State Trail

Generally, land capabilities 1-3 are considered prime farmland. However, with such land classification certain soil have limitations such as slope, erosion, flooding, or drought. So a soil class of 1-3, which generally would be considered prime farmland may not be officially labeled as prime farmland, because it has one of the limitations listed above.
