

WISCONSIN DEPARTMENT of HEALTH SERVICES

Division of Public Health Information Update

Preventive Health and Health Services (PHHS) Block Grant Update

Response Required by May 12, 2021

This bulletin is being sent to local health officers, tribal health directors, and key DPH staff.

The Department of Health Services, Division of Public Health has calculated each local and tribal health department's allocation of Preventive Health and Health Services (PHHS) Block Grant funds for Federal Fiscal Year 2021 (FFY21). This is for the period 10/1/2020 through 9/30/2022. You can find your health department's allocation in [this table](#).

Selecting Objectives for FFY21

During the spring of each year, we ask for information from each local and tribal health department about activities they plan to implement using their annual PHHS Block Grant allocation. This information is necessary to provide to CDC in the annual state work plan.

To obtain this information, **we require all local and tribal health departments to [respond to this survey](#) no later than May 12, 2021:**

The survey will also ask a few questions to gather mid-year progress data. Please answer to the best of your ability.

Resources

The following documents will help you complete the survey. They are posted to the [PHHS Block Grant SharePoint site](#), which is accessible to health officers. **If you need access, please email [Jessica Kessler](#), PHHS Block Grant Coordinator.**

- [FFY21 LTHD Allocation Chart](#)
- [FFY21 LTHD Template Objectives](#)
 - You must select at least one of these template objectives if you accept FFY21 PHHS Block Grant funds. Please reach out to your region's contact if you need help selecting an appropriate objective for your work.
 - No particular objective is required, meaning you may implement any of the objectives with your PHHS Block Grant allocation.
 - Multi-jurisdictional consortiums are still allowable. Please speak with your region's contact to coordinate the negotiation of consortium work.

DPH Contacts

If you require assistance with completing the survey, selecting objectives for the upcoming year, or have any questions, please reach out to the DPH contract monitor (Office of Policy and Practice Alignment staff) temporarily assigned to your region.

Public Health Region	Temporary DPH Contact*
Northeastern	Jim Lawrence , OPPA Health Educator
Northern	Jim Lawrence , OPPA Health Educator
Southeastern	Deb Heim , OPPA PHN Consultant
Southern	Sheri Siemers , OPPA Health Educator
Western (Buffalo, Clark, Eau Claire, Jackson, La Crosse, Monroe, Pepin, and Trempealeau Counties)	Sheri Siemers , OPPA Health Educator
Western (Barron, Burnett, Chippewa, Douglas, Dunn, Pierce, Polk, Rusk, St. Croix and Washburn Counties)	Char Ahrens , OPPA PHN Consultant
Tribes	Char Ahrens , OPPA PHN Consultant

*Due to reassignments of DPH staff for response-related work, staff serving as contract monitors are assisting multiple regions temporarily.

Please do not reply directly to this email message. If you have a question, please email [Jessica Kessler](#).

Federal Fiscal Year 2021 Preventive Health and Health Services Block Grant Local and Tribal Health Department Objectives

These are the four objective options to allocate Federal Fiscal Year (FFY) 2021 PHHS Block Grant funding. These activities are to be implemented between 10/1/2020-9/30/2022. Additional detail will be obtained during contracting in fall 2021.

Objective 1: Community Health Improvement Processes and Plans

National Healthy People 2030 Objective PHI-05: Increase the proportion of local jurisdictions that have a health improvement plan

Usage: Select this objective if your health department plans to utilize FFY21 PHHS Block Grant funding to develop or update a community health assessment (CHA) to identify community health needs and/or to develop or update a community health improvement plan (CHIP) with community stakeholders and partners.

Why CHA/CHIP? Local health departments are required by State Statute and Administrative Rule to develop a written CHIP at least every 5 years by assessing applicable data, developing measurable health outcomes, and partnering with others to cultivate community ownership of the development and implementation of the plan.

Objective 2: Implement Community-Based Interventions

National Healthy People 2030 Objective ECBP-D07: Increase the number of community organizations that provide prevention services

Usage: Select this objective if your health department plans to utilize FFY21 PHHS Block Grant funding to implement an evidence-based or promising practice strategy to improve health in a selected priority area, based on community health assessments or community health needs assessments.

Why Prevention Interventions? All communities in Wisconsin have localized and unique needs related to prevention services. While some health priorities are universal and covered under the state's health plan, jurisdictions have also identified and prioritized health issues of greatest need for their communities. The adaptability of the PHHS Block Grant to address local needs makes this a good fit for the myriad of community-based interventions implemented in Wisconsin.

Objective 3: National Public Health Accreditation

National Healthy People 2030 Objective PHI-02: Increase the proportion of local public health agencies that are accredited

Usage: Select this objective if your health department plans to utilize FFY21 PHHS Block Grant funding to implement an activity to help achieve or maintain voluntary national public health accreditation or reaccreditation.

Why Accreditation? Everyone in Wisconsin should have access to a basic level of public health services. The Public Health Accreditation Board (PHAB) has developed standards and performance measures related to the provision of these essential services. Through voluntary PHAB accreditation, public health agencies in Wisconsin receive external verification that they have implemented performance management, developed leadership, and established relationships with the community.

Objective 4: National Public Health Performance Standards

National Healthy People 2030 Objective PHI-02: Increase the proportion of local public health agencies that are accredited

Usage: Select this objective if your health department plans to utilize FFY21 PHHS Block Grant funding to implement an activity to conform with the National Public Health Performance Standards (NPHPS) or assess conformity with NPHPS.

Why NPHPS? While not every local and tribal health department will pursue voluntary accreditation, all should be working towards full implementation of NPHPS. NPHPS describe the optimal level of performance of a health department in delivering the essential public health services. This helps improve the quality of public health practice, strength of partnerships, and performance of public health systems for responding effectively to day-to-day public health issues and public health emergencies.

Agency #	County	Region	Health Department Name	FY21 Allocation
1	ADAMS	S	Adams County Public Health Department	\$ 5,696
