SpecPro Professional Services, LLC (SpecPro) is under contract with the US Army Environmental Command (Army) to install three (3) monitoring wells for monitoring groundwater contamination that has migrated from the Badger Army Ammunition Plant (Badger AAP). SpecPro has hired Cascade Drilling (licensed driller in Wisconsin) to install the monitoring wells to approximate depths of 119, 165 and 213 feet with an all-terrain vehicle (ATV) rotosonic drill rig with rubber tracks. The three wells will be completed above ground with steel locked casings and steel protector posts. Each well will be surrounded by a 2 x 2 foot concrete pad. No chemicals will be used to install the wells. All soil cuttings and trash will be removed from the work zone.
