Mirror Lake Dredging Project – Use of property for removal of materials from work site

Veit & Company, Inc. (“Veit”) has been awarded the Mirror Lake Dredging Project (the “Project”) and would like to utilize dam property owned by Sauk County adjacent to the Project site. Prior to start of the project, Veit would like to enter into an agreement with Sauk Co. to use the property generally described as “Delton Dam” under the terms described in Attachment A. If Sauk Co. is agreeable to the property being used by Veit, please indicate approval by signing where indicated below.

Veit will be granted access for equipment and materials to be delivered and removed to/from the worksite. At no time during the project will Veit’s activities have an impact on the operations of the dam. This access is only for the duration of the Mirror Lake Dredging Project and ends upon completion of the project. Veit will document (by video) the condition of the property pre-construction. Veit will haul in several loads of gravel to level off the haul route near the river (if needed), this material could be left in place to potentially be used by the property owner later (if desired). Upon completion Veit will contact Sauk Co. for a post-project inspection to ensure property is left in acceptable conditions and any damage or discrepancy is corrected prior to demobilization. At completion of the project all haul routes will be leveled off to pre-construction conditions and all seeding will be completed as necessary by Veit. By Sauk Co. allowing Veit to use their property for access to the work site does not mean that they are tied to the Mirror Lake Dredging Project.

Please sign and date below if the terms described above are acceptable.

Property Owner Signature _____

Date _____
