ARTICLE 1 – BACKGROUND AND OBJECTIVES

The purpose of this Memorandum of Understanding (MOU) is to encourage and formalize the cooperative relationship necessary for effective management, coordination and implementation of invasive species programs among the above mentioned Interested Parties.

Various organizations or individuals may, at any time, choose to participate informally with a Cooperative Invasive Species Management Area (CISMA) with a working title of the South Central Invasives Partnership (SCIP). These “Informal Participants” will be required to sign a signatory page stating that they will voluntarily participate under the applicable guidelines (or applicable articles) in this MOU or project specific agreement.

Definitions of terms in this agreement are as follows:

- a. “Introduction” means the intentional or unintentional escape, release, dissemination, or placement of a species into an ecosystem as a result of human activity.
- b. “Ecosystem” means the complex of a community of organisms and its environment.
- c. “Native species” means with respect to a particular ecosystem, a species that, other than as a result of an introduction, historically occurred or currently occurs in that ecosystem.
- d. “Non-native species” means with respect to a particular ecosystem, any species, including its seeds, spores, or other biological material capable of propagating that species, which has been introduced to the ecosystem by means of other than natural processes (e.g. human introduction, concurrent introduction with other native or non-native species).
- e. “Invasive species” means a species, typically non-native, that has competitive advantage because of:
 - a. the absence of natural diseases, insects, or other organisms that normally maintain its population in its place of origin;
 - b. the ability to grow earlier and more quickly than native species;
 - c. the ability to reproduce both rapidly and in great numbers; and/or
 - d. the ability to thrive in a wide variety of habitats.As a result of these competitive advantages, invasive species are able to out-compete and ultimately replace native species and can cause economic or environmental harm or harm to human health.
- f. The area served by the South Central Invasives Partnership is geographically defined as the lands and waters within the geopolitical boundaries of Sauk, Iowa, Lafayette, Green and Dane Counties.
- g. The South Central Invasives Partnership Board is made up of both the Interested Parties and Informal Participants.

Invasive, non-native species are recognized as a widespread and increasing problem in southwestern Wisconsin, with serious and detrimental effects occurring on public and private lands and waters. Invasive, non-native species are displacing native communities throughout Sauk, Iowa, Lafayette, Green and Dane Counties.

ARTICLE 2 – LEGISLATIVE AUTHORITY

This MOU is neither a fiscal nor a funds obligating document. Any endeavor involving reimbursement or contribution of funds between the Interested Parties will be handled in accordance with applicable laws, regulations, and procedures including those for Government procurement and printing. Such endeavors will be outlined in separate agreements that shall be made in writing by representatives of the Interested Parties and shall be independently authorized by appropriate statutory authority. This MOU does not provide such authority. Specifically, this MOU does not establish authority for noncompetitive award to the cooperator of any contract or other agreement. Any contract or agreement for training or other services must fully comply with all applicable requirements for competition.

For the Wisconsin Department of Natural Resources, the legal authority for entering into this agreement is Wis. Stats. ss. 23.09 (2)(h), 23.22 (2)(b)3. and 28.07.

d. Utilize the Upper Sugar River Watershed Association as the fiscal administrator for any grants or financial support received by South Central Invasives Partnership,

e. Review this MOU and request revisions and updates as necessary to meet the purpose of this agreement. Amendments shall become effective upon approval by all Interested Parties. This includes adopting a new name approved by the Board.
