

Sauk County, Wisconsin Emergency Management Annual Report

2018 Mission: In conjunction with State Statute 323, maintain an effective emergency management program with the National Response Plan and State Emergency Response Plan to protect and assist the citizens of Sauk County whenever a manmade, technological or natural disaster occurs, including terrorism. Perform all required duties under the Superfund Amendment Reauthorization Act (SARA).

- Coordinating Sauk County Employee Safety Training at all Sauk County Buildings; for all employees to be introduced to new safety measures and refresh on current life safety guidelines in place. An annual training occurs in the spring, where employees are practicing real-life scenarios; this helps to keep their muscle memory of what to do in these situations.
- ALICE Implementation throughout Sauk County, for Private and Public Entities
- Sauk County EM works continuously to keep Sauk County up to date with the newest guidelines and safest standards throughout the year. (Alert system, weather radios in schools, Nixle, etc.)

Departmental Program Summary:

Emergency management is the organization and management of resources and responsibilities for dealing with all natural (tornadoes, flood, earthquake, or hurricane) and man-made (active shooter, building collapse, fires, riots) emergencies—preparedness, response, and recovery—in order to reduce the harmful effects of all hazards, including disasters. Emergency management consists of five phases: prevention, mitigation, preparedness, response and recovery.

2018 Goals Review

2018 GOALS REVIEW

OBJECTIVE	WAS THIS OBJECTIVE REACHED IN 2018?
	Yes or No (If no, please provide comment)
Ongoing planning, education & awareness to newly developing issues	Yes
Assist all personnel involved with Disaster response in obtaining required ICS & NIMS training to assure compliance.	Yes

2018 GOALS REVIEW

OBJECTIVE	WAS THIS OBJECTIVE REACHED IN 2018?
	Yes or No (If no, please provide comment)
Private Public Partnership- Lake Delton	Yes
Assisting in surrounding county exercises	Yes
NOAA weather radio for all Sauk County residents	Available year-round for residents to purchase at various locations throughout the county
Sauk County Employee Emergency Drills	Completed Spring 2018
ALICE to the community/residents	We held 45 successful trainings and served 1500+ residents. We are also holding continuous training in 2019 due to the overwhelming response to our presence in the county.
Violent Threat Assessment in schools	Worked with Sauk Prairie School District to develop
Updating Sauk Counties Hazard Mitigation plan	The plan will be updated by March 2019
Stop the Bleed/AED/CCR Training to residents in the county	We held 8 successful trainings and served 200+ residents
Rural Safety Day Participation in Spring 2018	Held for three days; had 12 sessions per day, 30 kids per session. Chemical safety was taught to 3 rd grade students.

Changes / Accomplishments:

- Sauk County – flood, rescues, shelters, sandbagging efforts, National Guard, Damage Assessments, Volunteer Management in the communities, successful EOC
- Sauk County Emergency Management has coordinated a disaster relief fund for flood victims within Sauk County. As of January 30, 2019, the fund is currently at \$305,000. The Long Term Recovery Committee (LTRC) is working to disperse those funds back to those affected by the flooding for unmet needs.
- Sauk County Emergency Management Trainings have trained almost 1500 people around the county in 2018 with various safety trainings. Work closely with county schools, businesses, hospitals, churches, etc. We continue to offer trainings to those that are in need of safety preparedness.

- Sponsored spring severe weather/tornado spotters training for over 70 people. Went to the National Weather Service (NWS) to interact with meteorologists and learning new technology to keep Sauk County current with the latest trends.
- Sponsored active shooter trainings with private and public partners.
- Helped with the Rural Safety Days Chemical Safety session.
- Held regular meetings with local emergency management representatives to keep them abreast of latest Emergency Management mandates from the State and Federal levels.
- Local Emergency Planning Committee remains in compliant
- Updated Internet site to deliver pertinent information via the web before, during and after events. Maintain social media networks via online, radio and television interviews and in the newspapers.
- Conducted full-scale exercise for Sauk County employees at Courthouse, West Square, and Reedsburg Human Services
- Sauk County Library Awareness Campaigns developed and implemented
- Attended Wisconsin Emergency Management Assn. Conference & Governor's Conference
- Completed several After Action Reviews of incidents that occurred in the County and surrounding counties.
