

PLANNING AREA PROFILE

1. CHAPTER OVERVIEW

This chapter is intended to give an overview of Sauk County to help describe the setting and provide the general context for mitigation planning.

2. REGIONAL CONTEXT

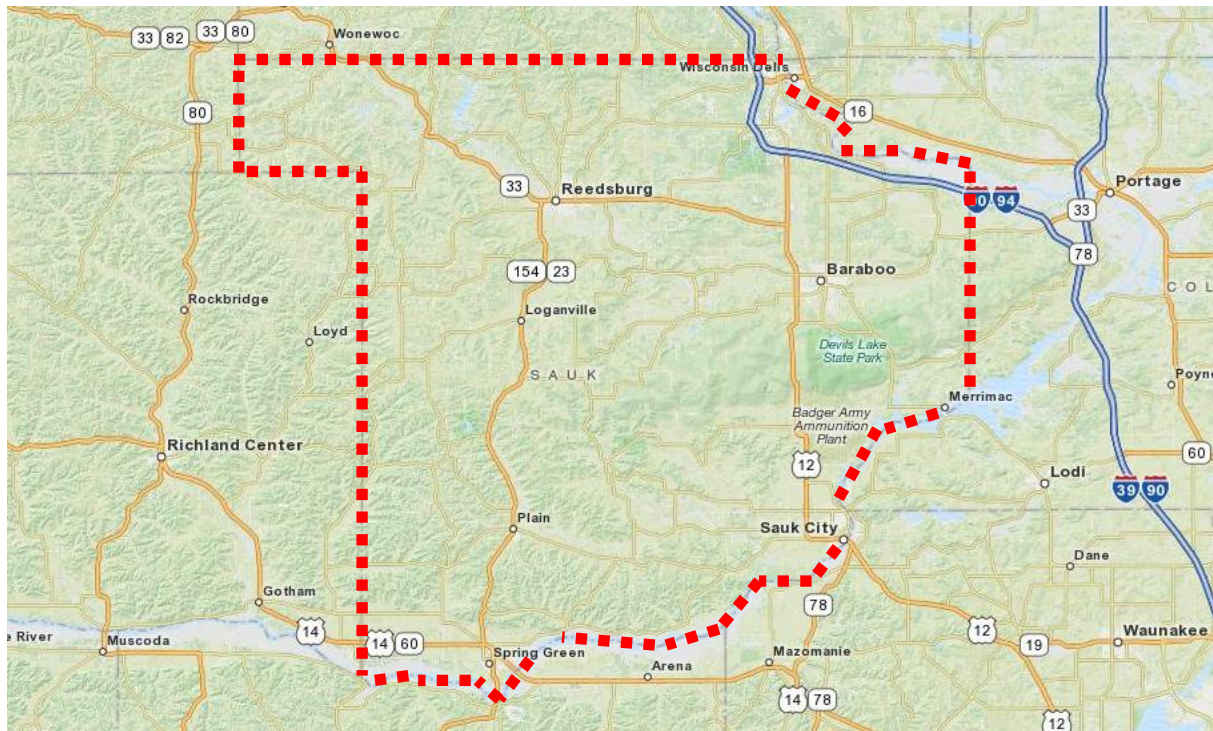

Sauk County is located in south central Wisconsin, approximately 25 miles northwest of Madison. Sauk County is bordered on the east by Columbia County, on the west by Richland County, Juneau and Adams counties on the north, and Dane and Iowa counties on the south (Exhibit 2-1).

The largest urban area in the county is the City of Baraboo, followed by Reedsburg, and a portion of Wisconsin Dells. Sauk County geographically consists of rivers, plains, and hilly terrain including the famous Baraboo Bluff Range, with elevations ranging from 700 feet to 2,200 feet. The county covers 544,640 acres, or approximately 840 square miles.

3. UNITS OF GOVERNMENT

In Sauk County there are 3 cities, 14 villages, and 22 towns. A portion of both the City of Wisconsin Dells and the Village of Cazenovia are also in other counties. The civil divisions are listed in Table 2-1.

4. SCHOOL DISTRICTS

There were 8 school districts in Sauk County (Table 2-2 and Map 2). Hillsboro School District and Ithaca School District do not maintain a school in the county.

5. POPULATION

In 2020, the resident population in the county was 65,763, an increase from a 2010 census total of 61,976 persons, representing a 2.3 percent increase during that time period, and a 19.1 percent increase since 2000 (Table 2-3). The city of Baraboo is the most populous municipality in the county, accounting for over 17 percent of the countywide population. In 2022, approximately 40.3 percent of the population lived in towns, with 32.5 percent and 27.2 percent living in cities and villages, respectively.

Based on projections prepared by the Demographic Service Center, Wisconsin Department of Administration (DOA), the county's population is expected to increase to 77,815 residents by 2040 (Table 2-4). While most of the municipalities are expected to gain population over this period, the towns of Baraboo, Franklin, Merrimac, and Westfield, along with the Villages of La Valle, Merrimac, and Rock Springs are expected to lose residents.

The City of Reedsburg is expected to experience the largest numerical gain (2,816 residents) and the Town of Sumpter the largest percent change (47.9%). Note that the 2020 projection is included next to the 2020 Census count. The DOA's projections are over a decade old and are in need of an update, and overall, the County's population is about 3.4 percent lower than what DOA projected for 2020.

Notes:

1. Municipality located in Sauk County and another county; data is for Sauk County only

According to the 2016 U.S. Census American Community Survey estimates, the overwhelming majority of people in Sauk County reported that they were white. About 95 percent of the residents in Sauk County reported to be white, not of Hispanic origins. This compares to 86 percent statewide.

6. HOUSING

In 2022, there were an estimated 30,907 dwelling units in the County. Of this total, 27,313 were occupied (Table 2-5). Approximately 7 out of 10 occupied residences were single family (both attached and detached units) and over 6 percent were mobile homes. In 2022, approximately 58.9 percent of the dwelling units were built prior to 1980 (Table 2-6).

7. TRANSPORTATION

SURFACE TRANSPORTATION

Interstate 90/94 is the only interstate highway in Sauk County (Map 3). It follows the Wisconsin River in the northeast corner of the county and provides access to the east and west. US Highway 12 is a major north south connector through Sauk City, Baraboo, and Wisconsin Dells. US Highway 14 traverses the southernmost part of the county and connects Spring Green to Madison to the east and Richland Center to the west. The other key regional highways include STH 23, STH 33, STH 60, and STH 154. The remaining roads consist of county highways and local roads. Given the varied topography, roadways often follow rivers and streams. There was nearly 1,800 miles of roads in the county (Table 2-7).

Table 2-7. Road Network by Type

Type of Road	Miles
Interstate System	15
State Highway	206
County Highway	302
Local Roads and Streets	1,255
Other	20
Total	1,798

AIR TRANSPORTATION

Commercial passenger service is available at Dane County Regional Airport in Madison, General Mitchell International Airport in the Milwaukee metropolitan area, O'Hare International Airport and Midway International Airport in the Chicago metropolitan area, and Rockford International Airport in Rockford, Illinois.

RAIL TRANSPORTATION

Amtrak maintains a station in the city of Wisconsin Dells, which provides access to Milwaukee and Minneapolis/St. Paul and points beyond. In 2010, Wisconsin and Southern Railroad operated a line as depicted in Map 4 which served the villages of La Valle, North Freedom, Merrimac, Prairie du Sac, Rock Springs, and Sauk City and the cities of Baraboo and Reedsburg.

8. LAND USE AND DEVELOPMENT TRENDS

FARMLAND

Approximately 61 percent of the land area in Sauk County is used for agricultural purposes. In 2022 there were 1,408 farms in the County, a decrease of 8 percent since 2012 (Table 2-8). Over that same period, the number of acres in agricultural production decreased about 9 percent from 332,649 acres to 298,103. The market value of products sold in 2012 reached just over \$269 million, which represents a 30-percent increase over 2012.

In 2022, sales of livestock and livestock products accounted for 53 percent of market value, while crop sales accounted for 47 percent. The number of dairy herds in Sauk County has been declining while the size of the remaining herds is increasing. Sauk County is the second largest pork-producing county in the state. There are also sizable sales volume of corn, forage land, cow milk, soybeans, grains, seeds, and legumes.

In addition, Sauk County has many agricultural business headquarters including Foremost Farms, Equity Livestock, Accelerated Genetics, and the Wisconsin Holstein Association. The county also has three cheese plants; Cedar Grove Cheese in Plain, Carr Valley Cheese in Ironton, and Saputo Cheese in Reedsburg. Lakeside Foods operates a large vegetable canning and freezing plant in Reedsburg.

FORESTLAND

The U.S. Forest Service identifies approximately 211,000 acres of the 544,640 acres in Sauk County as wooded land. Approximately 95 percent of the Sauk County forest resource is privately owned. Baraboo Hills is the largest continuous stretch of woodland in Sauk County and is regarded as an excellent resource for ecologists seeking to protect habitat for rarer plants, birds, and animals in the area.

RESIDENTIAL, COMMERCIAL, AND INDUSTRIAL LAND USES

Cities and villages account for 38.2 square miles, or less than 5 percent of the total land area of the county (Table 2-9). There has been a steady growth in the residential and urban areas of the County. The City of Reedsburg and Village of Prairie du Sac have shown the greatest growth. Numerous mobile home parks are present throughout the county. Small unincorporated communities are situated throughout the county, especially around some of the larger lakes such as Lake Redstone, Lake Virginia, and Dutch Hollow Lake. There are numerous elderly housing developments and community based residential facilities, both urban and rural.

Table 2-8. Agriculture at a Glance; Sauk County: 2012 and 2022

	2012	2022	Percent Change
Number of farms	1,665	1,408	- 8
Land in farms (acres)	332,649	298,103	- 9
Average size of farms	200	212	+ 6
Market value of products sold	\$207,053,000	\$269,044,000	+ 30
Average market value of products sold per farm	\$124,356	\$191,083	+ 53

Village of Sauk City	6.3
Village of Lake Delton	6.6
Sauk County	852.9

Urban development is anticipated to increase proportional to the population growth, and will likely be limited in the unincorporated areas of the county. Anticipated development in cities and villages are graphically depicted in Exhibit 2-1.

Exhibit 2-1. Anticipated Population Growth Over Next Ten Years

Note: Rankings for municipalities in Sauk County are for comparative purposes only

9. JOBS AND EMPLOYMENT

Unlike some of the other southern counties, Sauk has always had a very strong tourism economy. The Dells of the Wisconsin River, near Wisconsin Dells, and Devil's Lake, near Baraboo, have been tourist destinations for over 150 years. During this period, tourism has expanded beyond the natural features of these two sites to include numerous attractions constructed by humans. The tourism industry has evolved into a continuous 20-mile-long tourist corridor extending from Wisconsin Dells to the city of Baraboo and beyond. The county has become the third highest ranked county in the state for tourism income behind Milwaukee and Dane counties.

This strong tourism economy has led to a low unemployment rate and an increasing wage scale. Such factors make the County a desirable location for the relocation of working families and, which keeps young adults employed in their home communities.

Sauk County has a very diverse employment base. Table 2-11 lists the top 20 employers in Sauk County. With 1,300 employees, Ho-Chunk Casino, Hotel and Convention Center is the largest employer in the county followed by Kalahari Resort and Convention Center with 1,200 employees.

Table 2-10. Jobs and Establishments by Sector

Sector	Establishments	Jobs

10. CLIMATE

The climate in Sauk County is characteristic of much of southcentral Wisconsin. Temperature and precipitation data from an observation station in Sauk County are presented in Table 2-12.

Table 2-12. Temperature and Precipitation; Sauk County: 1971-2000

Month	Average Daily High Temperature F° [1]	Average Daily Low Temperature F° [1]	Average Total Precipitation (Inches)	Average Snow and Sleet (Inches)

Notes:

1. The monthly mean temperature is the mean of the average daily maximum temperature and the average daily minimum temperature for each month.

11. PHYSIOGRAPHIC FEATURES¹

The county is composed of varied and unique land features including the plains along the Wisconsin River, the oak forest covered quartzite bluffs, the unglaciated hills and valleys of the county's western two-thirds and the extensive wetlands in the northeast. Land elevations range from 700 feet to 2,200 feet. The county consists of three major distinctive geological regions.

- ◆ **The Driftless Area** The western four-fifths of Sauk County is part of an area commonly described as the Driftless Area. There is no evidence of this area having been glaciated for at least 750,000 years. Because the western portions of Sauk County are unglaciated, the topography has been sculpted by flowing water for thousands of years, resulting in a dissected bedrock plateau with relatively narrow ridges and steep-sided valleys.
- ◆ **The Glaciated Area** In contrast to the western portion, the landscape of the eastern one-fifth of Sauk County has been modified by the last glaciation, which in Sauk County lasted from about 18,000 to about 15,000 years ago. The glacier came into the County from the east, moving slowly westward covering the landscape with glacial deposits. This eastern one-fifth of Sauk County is described as being rolling with complex slopes.
- ◆ **The Baraboo Bluffs** One of the most significant topographic features in eastern Sauk County are the Baraboo Hills, which are eroded remnants of Precambrian quartzite. The Hills extend for approximately 25 miles east-west across east-central Sauk County into westernmost Columbia County. The Baraboo Bluffs attain their greatest relief in the Devil's Lake area. Devil's Lake was formed when glacier ice plugged both ends of Devil's Lake gorge and left behind ridges (moraines) composed of till in a portion of the Baraboo Bluffs. These moraines are part of the terminal moraine that extends through eastern Sauk County from the north, a few miles east of the city of Wisconsin Dells and village of Lake Delton, continuing southward towards Sauk Prairie.

**Table 2-13. Lakes in Sauk County

12. SURFACE WATER

Sauk County is divided into nine watersheds: Seymour Creek, Crossman Creek-Little Baraboo River, Narrows Creek-Baraboo River, Dell Creek, Lower Baraboo, Lake Wisconsin, Plain-Honey Creek, Willow Creek, and Bear Creek.

Sauk County has 19 named lakes² covering 10,977 acres (Table 2-13). Lake Wisconsin is the largest lake in the county, with a surface area of 9,000 acres. The majority of lakes are 100 acres or smaller. There were 75 miles of trout streams in the county. There are one or more streams located within the boundary of each of the cities, villages, and towns, with the exception of the villages of Cazenovia and Lime Ridge (Table 2-14).

13. WETLANDS

According to the Wisconsin Department of Natural Resources, Sauk County has approximately 32,145 acres of wetlands, or about 6 percent of the area of the county. Wetlands are defined by state statute as "an area where water is at, near, or above the land surface long enough to be capable of supporting aquatic or hydrophilic (water-loving) vegetation and which has soils indicative of wet conditions." Wetlands may be seasonal or permanent and are commonly referred

² There are an additional 17 unnamed lakes in the DNR database in Sauk County

to as swamps, marshes, or bogs. Wetland plants and soils have the capacity to store and filter pollutants, replenish groundwater supplies, store floodwaters and maintain stream flows.

Table 2-14. Surface Water by Location

Town	Major Waterways in Boundaries
Baraboo	Baraboo River, Devils Lake
Bear Creek	Bear Creek, White Mound
Dellona	Dell Creek
Delton	Wisconsin River
Excelsior	Lake Virginia, Baraboo River, Narrows Creek, Copper Creek
Fairfield	Wisconsin River, Baraboo River
Franklin	Honey Creek
Freedom	Seeley Creek, Baraboo River, Pine Creek, Skillet Creek
Greenfield	Baraboo River, Creek from Devils Lake
Honey Creek	Honey Creek
Ironton	Little Baraboo River
La Valle	Lake Redstone, Baraboo River
Merrimac	Wisconsin River
Prairie du Sac	Otter Creek, Honey Creek, Wisconsin River
Reedsburg	Babb Creek, Hay Creek, Narrows Creek, Baraboo River
Spring Green	Wisconsin River
Sumpter	Oak Creek
Troy	Honey Creek
Washington	Narrows Creek, Bear Creek
Westfield	Narrows Creek, Honey Creek, Seeley Creek
Winfield	Twin Creek
Woodland	Little Baraboo River, Dutch Hollow Lake
