Public Health
Prevent. Promote. Protect.

According to ATCP 72.11(3)(a), “Whenever multi-use glasses, ice buckets or other utensils are provided for a guest, the items shall be washed, rinsed, and sanitized in an approved manner before being provided for use by a different guest.”

There are two options when supplying multi-use utensils:

- 1.) Take out every utensil and wash, rinse and sanitize each dish or utensil before a different guest stays
- 2.) Post the Disclosure for Sanitizing Utensils (listed below) in the cabinets to let guests know that every dish may or may not be sanitized between each guest stay.

Disclosure for Sanitizing Utensils

“Food and beverage utensils have been provided in this tourist rooming house as a guest convenience. They have not been sanitized. It is recommended that you wash with a detergent, rinse with clean water and sanitize utensils before their use. To sanitize, after rinsing, add 1 teaspoon of unscented bleach per gallon of clean water and immerse utensils for a minimum of 60 seconds, then air dry.”
