

Restaurant Guidance for COVID-19

- Delivery and drive-through service are the best approaches for your facility.
- Walk-up, window service or drive-up service can be implemented with additional precautions to mitigate potential COVID-19 transmission.
- Practice social distancing both while at work and away. Minimizing all direct interactions.
- Continue good handwashing, along with cleaning, and disinfecting all surfaces
- Don't work while sick. Don't work if experiencing symptoms or if exposed to someone who is ill.

Additional Precautions

- Limit the customers in your establishment to no more than 5. Ensure at least six feet of distance from one another.
- Implement other best social distancing such as ordering and paying online, or having customers wait in their car for takeout.
- If staff have symptoms exclude them from the establishment.
