

Maintenance Technician III

Teel Plastics is a business that values integrity, teamwork, creativity, diversity and individual initiative in the workplace. For over six decades Teel Plastics has specialized in custom extruded plastic tubing and plastic profiles. Our reputation of exceptional made-to-order plastic tubing, plastic cores and plastic profiles are largely due to our combination of highly skilled employees and unique extrusion manufacturing techniques. Teel Plastics utilizes three facilities using extrusion, compounding and an analytical laboratory to specialize in extruded plastic tubing and profiles in a variety of sizes and materials. We have expanded our capabilities, improved our value-added services and continue to offer customers a wide range of products. Our custom tubing comes in an assortment of sizes and array of materials. Our capabilities include the ability to manufacture 0.015" to 9" O.D. plastic tubing with wall thicknesses from 0.003" to 0.600" on rollers and cut lengths from .125" and up.
